<b>INJECT ID</b>	BCOM05T

**INJECT DESCRIPTION:**

The IT Director has hired a consultant to locate a disaster hot site for our infrastructure.  
The constant needs to know:

- The minimum number of physical servers and storage that we would need.
- The minimum number of virtual machines to implement our services.
- Inventory of OS needs with versions.
- Inventory of application software needs with versions.
- Firewall capabilities.

**INJECT DELIVERABLE**

Prepare a memo that we can pass along to the consultant with the required information.
